What's in The Box

Nakamichi's NSE series speakers are designed to provide for a clean and seamless sound performance, with selected materials that work together, enabling you to truly hear and feel the music in your vehicle.

Composite Polypropylene Cone
Our treated composite polypropylene cone is extremely rigid but still lightweight, allowing it to reproduce even deeper and more powerful bass notes.

PET Dome Tweeter
PET, or also known as Polyethylene, is lightweight, heat resistant and retains its shape even after prolonged use, allowing accurate sound reproduction in all situations.

Form Surround
Our form surround is treated to maintain a consistent level of sound reproduction during long periods of operation within your vehicle.
